

Our PAJ experience

On Friday 27th April we spent the afternoon with two musicians, to create a soundtrack with some words that we had to repeat one by one like Chinese Whispers but we had some earphones on. Frederic Bargeon-Briet was

On this photo, we can see julia singing French words

conducting us and Christophe Rocher was recording us. At some point we did a chorus in English and it was fun because we had to speak up and even shout or scream and whisper as well, so we really played with our voices and with sounds. Our Swedish penfriends had done the same

when they came but with a Swedish musician, Christofer Bjurström. After the musicians will work on the track for create a real song with our voice.
